I'm at the University of Sheffield and I study Economics.

AEMS has been brilliant. I met so many people and learnt so many different things. It's something you have to experience to understand how good it is.

The most important aspect for me was how diverse everybody who attended the course was. Everybody came from such different backgrounds, and I could have a completely different situation as somebody else.

Everything on the course was about learning an answer to one question, and although it's never that simple, AEMS made it feel simple. It was nice to know that we could come together as a group to discuss what works and what doesn't.
