Building.  
Solutions.**

I am from Egypt and I am studying at German University in Cairo and also doing a double degree programme in Berlin.

What I enjoyed most during GBS was getting to meet lots of great lecturers. We tackled a variety of topics and I got to network with many different people from different places. It was a great opportunity to exchange expertise and experiences.

One of the topics we covered was sustainability in the building sector, which is very apparent all over Vienna so it was really interesting to see what we studied in practical life. Vienna is a lovely city too!

I would recommend GBS to everyone I know because it is such a great programme with very interesting lectures and a lot of interesting people from all over the world.
