**Green.
Building.
Solutions.**

I am originally from Latvia, but I am studying abroad in the UK in Newcastle at the School of Architecture and Urban Planning.

One of my favourite things from GBS was definitely the people I met here. At first, it was confusing, of course, because change always brings some misunderstandings, but as you get to know people, it becomes entertaining and interesting.

The group work has been the most beneficial for me because not only do you get the information, but you also get a chance to practice your ideas and see if they work out. You also get the chance to speak to the lecturers and they can tell you how to approach your idea or task differently, which is really useful. I definitely will apply this in my practice, as I proceed with my architecture studies.

Overall, Vienna is a quiet city, but it's very vibrant. It is definitely a city you can come to and feel right at home.

I would surely recommend GBS to anyone.
