& MONETARY SYSTEMS**

I'm studying Environmental and Bio-Resource Management at BOKU University in Vienna. I'm also doing a Master's in Philosophy and Economics.

I heard about the summer school through my current university, BOKU, as my professors told me that it would be a nice experience to exchange ideas in an international setting, with other students from all around the world.

We had someone from almost every continent attend AEMS this year, which was great.
